

Coaching Circles

Develop the Leaders your school needs for today & tomorrow through coaching and co-consulting

What is a Coaching Circle?

Coaching is the working partnership of coach & client that aims to deepen learning & exceed personal and professional goals. EquiLearn Coaching Circles add another dimension; the support and problem-solving capability of the group or circle; an external perspective.

How do Coaching Circles Work?

- ✚ Circles are made up of 6-8 school leaders
- ✚ All members are focused on continuous personal development contextualised to their roles and responsibilities
- ✚ Each circle series consists of 6-8 sessions of 60-90 minutes completed within a 20 week period
- ✚ Meetings are held in school at your convenience
- ✚ Meetings follow a specific format for maximum effectiveness
- ✚ Coaching Circles are based on collective problem-solving action learning philosophy, but with individual ownership of issues
- ✚ Sessions are either facilitated by a professional EquiLearn coach, or Equilearn facilitates sessions 1 & 8 with 2-7 facilitated by CC members
- ✚ Circle membership involves a personal commitment to participate in the full series

Cost

The cost to set up the Coaching Circle & facilitate varies according to membership & agreement. For our current offer of 8 sessions - with 2 Equilearn facilitated sessions as noted above - plus email support & co-consultation throughout, call or email us.

EquiLearn recommends that Coaching Circle members take a measure of emotional intelligence (an EQi). Success today-personal & professional-demands relationship skills as never before. Research shows that school leaders with high EQs (emotional quotients) are more likely to succeed; emotionally intelligent living is a critical aspect of the 21st century landscape. Circle members have access to this service at a special rate to include a 90 minute 1 to 1 confidential feedback session at which a forward personal development action plan is agreed.

You can find out more by joining a Coaching Circle.
