

Leadership and Motivation

A 2 Conversation Individual Leadership Development Intervention

This indispensable leadership development intervention is the baseline for leadership effectiveness. Why? It tackles the 2 fundamental issues that require absolute clarity from a leader who aspires to maximum effectiveness and personal impact. These are:

Motivation and Energy Management

Programme Objectives

- Review, explore and discuss the concept of motivation and work preferences
- Understand personal motivators and work preferences
- Explore strategies and tactics to motivate and engage others
- Review energy sources and focus energy management in general and personal energy patterns in particular

Time Commitment:

30 minute pre-conversation assessment

2 Conversations of 120 minutes

Includes a personal motivation and work preference assessment

Offered as a bespoke one-to-one coaching intervention

Who should attend: senior leaders and middle leaders in all business sectors
