

An EquiLearn Concept

# Leadership Circles

*Develop the Leaders your organisation needs for today & tomorrow through collaboration and co-consulting*

## What is a Leadership Circle?

EquiLearn Leadership Circles are based on a working practitioner collaboration concept that aims to deepen shared learning and lead to circle members exceeding personal and professional goals. EquiLearn Leadership Circles add another dimension; the support and problem-solving capability of the circle members; an external, 'neutral' perspective to each member's leadership challenges; a learning buddy.

## How do Leadership Circles Work?

- ✚ Circles are made up of 5-6 senior leaders
- ✚ All members are focused on continuous personal development contextualised to their professional lives
- ✚ Each circle series consists of 5-6 sessions of 90 minutes completed within a 12 week period
- ✚ Meetings are held in central London usually in the early evening
- ✚ Meetings follow a specific format for maximum effectiveness
- ✚ Leadership Circles are based on a philosophy of collaborative action learning through focused problem-solving but with individual ownership of issues/challenges with peer support available
- ✚ All sessions are facilitated by a professional, accredited EquiLearn coach
- ✚ Circle membership involves a one time fee, plus a personal commitment to participate in the full series

## Cost

The cost for membership of a Leadership Circle is available on request.
